Faculty of Arts and Humanities
International Islamic University Chittagong

We would like you to join us in our two-day-long 1st International Conference scheduled to be held on 20-21 January, 2023 on a theme entitled Envisioning the Future: Teaching Language and Literature organized by Faculty of Arts and Humanities (FAH), International Islamic University Chittagong.

Language is at a nexus of interrelationships among individuals, societies and cultures. The interface between language and literature has been the object of considerable interdisciplinary research that can be applied across the two fields and their sub areas. Globalization, technological innovation and societal issues have always been instrumental in approaches and methods of teaching language and literature. The transformation and radical revision of traditional ways, practices and skills in teaching language and literature during and after Covid 19 pandemic is a glaring pointer towards it.

Behind this backdrop of changes, in this conference, we welcome academics and scholars with their recent research endeavors to address the quickly changing contours of language and literature teaching for future to stimulate the new generations of students and teachers. Besides, this academic gathering would afford a platform to meet and exchange ideas and views in a forum stimulating respectful dialogue, by bringing together university scholars working throughout the country, and beyond to share ideas and research.

It is through conferences like these that we expand our network, and we have no doubt that International Conference 2023 organized by FAH will offer a remarkable opportunity for the sharing of research and best practice, for the meeting of people and ideas. We expect the resultant professional and personal collaborations to endure for many years, and we look forward to seeing you in IIUC!
